**SUPPLEMENTARY INFORMATION:** The Occupational Requirements Survey (ORS) is a nationwide survey that the BLS is conducting at the request of the Social Security Administration. The Social Security Administration (SSA), Members of Congress, and representatives of the disability community have all identified collection of updated information on the requirements of work in today's economy as crucial to the equitable and efficient operation of the Social Security Disability (SSDI) program. Estimates produced from the data collected by the ORS will be used by the SSA to update occupational requirements data in administering the SSDI and Supplemental Security Income programs. The ORS collects data from a sample of employers. These requirements of work data consist of information about the duties, responsibilities, and job tasks for a sample of occupations for each sampled employer. For additional substantive information about this ICR see the related notice published in the Federal Register on December 19, 2022 (87 FR 77640).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The current approval is scheduled to expire on August 31, 2024.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.
